

GWW-House Rules

To make life more pleasant for all, please read and comply with the house rules. Violation of the rules constitutes a breach of residential contract. For further information, please contact **03943 21002**.

Noise

Noise disturbs residents. Televisions and music etc. must always be set to room volume. Daily quiet periods are from 13.00 to 15.00 hours, and from 22.00 to 07.00 hours.

If annoying noises cannot be avoided, for example when moving or working on a residence, this work is restricted to weekdays between 08.00 and 18.00 hours, with quiet time between 13.00 and 15.00.

Children should play in the playgrounds when possible. Noisy games indoors or in the stairwells are not allowed.

Playing soccer etc. in the green areas is not permitted. However, there are no objections to the games of small children.

For festivities on special occasions when there might be noise after 22.00, we recommend that you notify the residents well in advance.

Security

The front doors must be kept closed from 20.00 to 06.00 hours.

House entrances, stairs, corridors and cellar corridors can only function as escape routes when they are kept clear. They must not be obstructed.

Storage of flammable or odor-causing substances in cellar rooms is prohibited.

Barbecuing on the balcony is permitted, only with an electric grill, a maximum of 6 times a year, from April to September. Avoid strong smoke development so as not to disturb your neighbors.

Do not drive or park vehicles on the green areas.

Garbage

Bulky waste may only be deposited outside the house - at the container yard - on the day before it is to be collected. Arrange a collection date in advance with the waste management company.
